

SEVEN CAUGHT FOR SPEEDING

Police Force Adopts New
Plan To Catch Speed
Law Breakers.

After several hours of active duty on E. Main street last night the Ada police force succeeded in catching seven cars that were breaking the speed limit and advised them to report at headquarters this morning. From the standpoint of the law the night was very successful and the city treasury is several dollars larger today.

A plan has been adopted by which the force believes that they will be able to put a stop to speeding on the main streets of the city, and it is very necessary to do this for the safeguarding of lives of the pedestrians as well as the occupants of the cars. Many efforts have been made heretofore to catch speed law breakers but only occasionally were they successful in getting one. Now that a new plan has been adopted, which is proving very successful, it is hoped that results will soon be noticeable.

Mayor Kitchens stated this morning that so many of the leading citizens were guilty of this that it encouraged others to speed up their cars thus causing much danger to people on the streets. Therefore, very stringent means are being adopted to make it possible for the officers to be successful in this new undertaking.

In the "catch" made by the officers last night there were two ladies. The others were very prominent men of the city who knew the penalty of their daring act and if the practice of breaking this law continues the officers promise to have several others before the mayor soon.

Some of those apprehended last night were before the mayor this morning for the first time. They were dealt with leniently and the penalty assessed was light. Some of them were given a little advice by the mayor and on their promised good behavior in the future, were given suspended fines.

This should be a warning to those who have a habit of "opening her wide" and should cause them to stay within the bounds of the law. All the streets of Ada will be watched in the future and it will be only a matter of time until speeding will be a thing of the past, or else the speeders will be well stocked on cash to pay their fines with.

Can Get Auto Tags.

Under Sheriff Kennedy announces that he has the application blanks on which to make application for automobile licenses for next year. The tag force at the state penitentiary have been very busy for several months making the new tags, and it is stated, that the delay heretofore prevailing in the matter of securing tags will not occur this season.

An Elegant Map.

The News is indebted to Hon. Tom D. McEown, congressman from this district, for an elegant wall map of the United States. The map is about five by seven feet and is up-to-date in every particular. The maps are furnished by the government in restricted quantities and are very serviceable indeed.

These photos of three of the new senators who will take office in March, were made in Washington. All three were promoted from the house. Hefflin, Alabama Democrat, served eight terms, and a portion of an unexpired term. Caraway, Democrat from Arkansas, served four terms, and McKinley, Republican from Illinois, served eight terms.

BABY IS STRUCK BY CAR TUESDAY

Four Year Old Boy Ran
Over While Crossing
Street Yesterday.

Caught in a maelstrom of speeding cars on E. Main at 5:45 p. m. yesterday little Herman, the 4-year-old son of Mr. and Mrs. Fred Elam, was knocked down and run over by a Ford car receiving injuries which were at first thought to be fatal but were later found to be only slight. O. C. Walker, driver of the car, is not charged with carelessness in connection with the accident.

Persons who witnessed the accident said that the little boy had been playing with two other children in front of the R. G. Kenyon home at 528 E. Main. He started to cross the street just after two cars speeding westward had passed. Looking in the direction whence these two cars had approached he apparently did not see the Ford coming from the west or know of its presence until he ran into the side of the fender. The car was running about 15 miles per hour. The force of the impact knocked the little boy down under the car, but no marks could be found on the body later to indicate that either of the wheels had passed over it. Two other speeding cars rushed by going east just as the accident happened. Mr. Walker immediately stopped.

Police Chief Says Ownerless Dogs Are in Danger If Not Tagged

Chief of Police Gotcher stated this morning that unless the owners of dogs which infest the city in countless numbers come in and pay their dog taxes that there are soon to be many new faces in "dog heaven." The time limit for paying dog taxes is up, and, hereafter, if "Coley" is caught on the streets without a collar and tag, indicating that taxes on said animal have been paid, he is liable to "come up missing."

The law is that an officer can shoot to kill, and the theory is that if a dog is worth having at all it is worth paying the small tax on, which is imposed by the city.

Stray dogs are a menace to any city or community, and it is certain that Ada has more than her share of this pest. Very often a dog goes mad, runs amuck and endangers the life of some citizen. If the dog has no collar or tag on it is very easy for the owner of the dog to deny ownership and thereby evade the responsibility of the damage.

Another thing, a pack of useless canines chasing helter skelter about the city carry disease germs and constitute a real menace of society. The order has gone forth from

the office of the chief to thin out the tramp dogs, and if you have one which is still at large with taxes unpaid, and if you care for it, better get up to the city hall and buy a lease of life for another year.

CROP REPORT TODAY GOOD

Wheat and Winter Crops
Make Good Gains Last
Few Days.

(By the Associated Press)
OKLAHOMA CITY, Dec. 15.—Winter wheat made good growth during the week ending, December 14, and generally is in much better condition and is being pastured generally, says the synopsis of weather and crop conditions for the week, issued today by the weather bureau.

This week was favorable for farm work and the growth of winter grain, according to the report, and considerable plowing was done in the central and western portions of the state, the soil being too wet in the eastern portion.

"Farmers continued to pick cotton, but the work is progressing slowly. An unusually large amount of cotton is still in the field and much of it will be abandoned and pastured."

"The harvesting of corn and grain sorghum is practically finished. Pastures are fair to good, and stock is doing well."

DEMPSEY KNOCKS OUT BILL BRENNAN

(By the Associated Press)
NEW YORK, Dec. 15.—Bill Brennan, who was knocked out in the twelfth round by Jack Dempsey, heavyweight champion, in Madison Square Garden last night, said today he intended to ask for another match.

"I am not satisfied that Dempsey is my superior," he declared.

The challenger, while saying he had vindicated himself, asserted that he was surprised when the referee motioned him to his corner, believing that he had beaten the court in the twelfth round. Dempsey said:

"Brennan was tougher than I expected. He stood up longer than I thought he would. His blows did not hurt me at any time, but I found him a hard man to hit properly."

Dempsey expects to leave for the Pacific coast tomorrow to stay until late in February, when he will come back to New York to train for his match with Jess Willard on St. Patrick's day.

LAKE STORM BROUGHT CONSIDERABLE DAMAGE

(By the Associated Press)
CHICAGO, Dec. 15.—Reports of damages from Chicago and Lake Michigan points today indicated that the loss from the storm which swept over this section Monday night and yesterday may run into hundreds of thousands of dollars. The wind, which at times attained a velocity of 74 miles an hour, did the greatest damage. Summer resorts along the east shore of Lake Michigan suffered severely.

More Bills Fall Due Than
Your Uncle Is Able
To Pay.

(By the Associated Press)
WASHINGTON, Dec. 15.—A bill for \$840,000,000 against the government falls due today and at the same time the treasury is to collect \$650,000,000 in income and excess profits taxes.

About \$700,000,000 in treasury certificates of indebtedness matured today and at the same time the semi-annual interest on the third Liberty loan and Victory loan, aggregating about \$140,000,000, became payable. In order to provide for current expenses and to meet the remainder of the heavy obligation which matures in January, including \$300,000,000 in certificates, Secretary Houston has offered two new issues of certificates aggregating about \$500,000,000.

LEGISLATION FOR EX-SERVICE MEN TAKEN UP TODAY

(By the Associated Press)
WASHINGTON, Dec. 15.—Legislation providing compensation, or a so-called "bonus" for former service men, was taken up today by the senate finance committee with a delegation representing the American Legion invited to open the hearing. The bill was passed in the house last spring. Although conceding that the question is difficult because of the treasury conditions, taxes and other considerations, senators have expressed themselves as anxious for disposition of the matter during the present session of congress. The hearings begun were ordered before the full committee instead of the usual subcommittees.

(By the Associated Press)
GEORGETOWN, Texas, Dec. 15.—Sagu, a Mexican charged with killing W. O. Wofford of Austin, and wounding Will Fisher of Bartlett, Texas, and Will Wallace of Eufaula, Okla., on a passenger train near Granger, Texas, December 10, was remanded without bail at his preliminary hearing late yesterday. Two other Mexicans were held in \$1,000 bonds each in connection with the crime.

JANITORS' STRIKE IS MENACE TO CHICAGO

(By the Associated Press)
CHICAGO, Dec. 15.—If Chicago janitors insist on carrying out their threatened strike in an effort to secure an increase in pay January 1, they will be evicted from their respective living quarters, according to an ultimatum announced today by the Chicago real estate board. Most of the janitors occupy quarters in buildings where they work.

Approximately 5,000 janitors, members of the janitor's union, have threatened to walk out. The first of the year unless their demand is granted, leaving between fifteen and twenty thousand apartments without heat and picketed against the delivery of necessities to flat dwellers.

ANIMATED DEBATES IN LEAGUE MEETING

(By the Associated Press)
GENEVA, Dec. 15.—Discussion of the question of mandate on the floor of the assembly of the league of nations seemed today to be probable and it was expected there would be an animated debate before the subject was disposed of.

The league has encountered difficulties in securing satisfactory replies from the supreme allied council and from the mandatory powers concerning the terms of mandates and the boundaries of territories placed under the supervision of various nations.

There is a strong undercurrent of opinion in the assembly that the mandates under which the powers fixed their own term are not properly mandates and there are indications that the question may be thrown back upon the supreme allied council if sufficient information has not been secured before Thursday night.

The committee in charge of the matter holds that it must have this information before it can make an intelligent report.

Visiting Legislator

Jess L. Pullen

Among the legislators who are expected to attend the Lions Club banquet in Ada Thursday evening is Jess L. Pullen of Davis, representative from Murray county in the eighth legislature. Mr. Pullen formerly attended East Central at Ada and is now a student of law at Oklahoma University. While studying in the University Mr. Pullen was nominated and elected by the voters of Murray County to represent them in the state legislature. He is considered one of the brilliant young men of the university and has won a splendid reputation as an eloquent speaker. His friends in Ada are gratified by the success Mr. Pullen is achieving in the world.

JUDGE CLAYTON DIES AT HOME

Well Known Oklahoma Jur-
ist Passes Away at
McAlester Home.

(By the Associated Press)
MCALISTER, Dec. 15.—Judge H. H. Clayton, for years federal judge for eastern Oklahoma and prominent in political circles before statehood, died here last night after an illness of two weeks.

MUSKOGEE, Dec. 15.—Judge Clayton, who died at his home at McAlester last night, was a pioneer lawyer of the southwest and for more than a score of years in the service of the government as prosecutor and judge. He was past 80 years of age.

Judge Clayton was born in Pennsylvania and served in the Union army in the war between the states. For 16 years he was United States district attorney at Fort Smith, Arkansas, when the federal court with headquarters in that city had jurisdiction over the old Indian Territory and was known as the biggest court in the world because of the extreme large territory over which it had jurisdiction. When federal court was established in eastern Oklahoma, Judge Clayton moved to McAlester and was later appointed judge of the United States court for eastern Oklahoma, which position he held for 20 years.

Mrs. Clayton died several years ago. He is survived by four children. Mrs. Florence Keyser of McAlester, Mrs. George Break of Oklahoma City, Mrs. H. R. Brown of Shreveport and Will Clayton of McAlester.

The funeral will take place at the residence tomorrow after noon the service being held under the auspices of the Masons. The body will be taken to Fort Smith for burial in the National cemetery beside Mrs. Clayton. Judge Clayton was Grand Master of the Masonic lodge at Fort Smith for many years.

FARMERS BUY COLLECTIVELY

Ohio Men Say They Can Save Thousands of Dollars.

(By the Associated Press)
COLUMBUS, O.,—Thousands of Ohio farmers, co-operating in one central association—The Farmers' Commercial Service Company—have placed the buying of practically all supplies needed in farm operation, on the same business like basis of large manufacturing plants, by employing a highly trained purchasing agent.

"We are co-operating with 412 farmers' co-operative grain elevators and other farm organizations, whose membership, while not exactly known runs into thousands," said Fred G. Greene, purchasing agent for the Farmers' Commercial Service company, with offices here. "Thousands of dollars have been saved during the last six months by farmers in northeastern and central Ohio."

"Farmers list their wants with their co-operative elevators, whose managers forward the combined orders of farmers to us. With many orders coming in daily, we are able to purchase large quantities of each article, thereby securing it at considerably less than the market price and often less than the wholesale figure."

"Beside securing supplies at the lowest possible cost, occasionally a farmer or farm organization will ask us to assist in disposing of a quantity of grain or produce, which we gladly do," Mr. Greene stated.

"At the end of the year after all operating expenses have been paid any surplus will be pro-rated among stockholders on a patronage basis," continued Mr. Greene. "Elevators and organizations which bought heavily of supplies during the year will receive a greater surplus dividend than others whose purchases were less. Co-operative elevators upon receiving this surplus dividend may divide it among their constituents, pro-rated, or retain it in the treasury, just as they wish," he explained.

"The company maintains itself," he said, "by adding a small commission to the cost price or deducting it from the selling price as the case may be."

"An organization or co-operative elevator is not compelled to hold stock in the company in order to secure supplies. However, indications point that shareholding organizations will receive their supplies at less cost because of the pro-rated surplus dividend."

"We are growing by leaps and bounds and I predict that within a few years similar companies will be working to the farmer's interest in every state, with a national co-operative organization working with them," Mr. Greene declared.

Indian Dismissed.
Frank Colbert, an Indian of Franks, pleaded not guilty in Judge Brown's court this morning to a charge of disturbing the peace at Franks recently. After hearing the testimony for the state Judge Brown was convinced that the Indian's plea was true and dismissed the case.

Colbert's attorney stated in court that the defendant's brother was the guilty party and that arrangements had been made for him to come to Ada and plead guilty to the charge that had been erroneously placed against his brother.

FOR TORPID LIVER

Tennessee Lumberman Talks of His Successful Use of Black-Draught for Colds and Headaches.

Jamestown, Tenn.—"I have used Theodor's Black-Draught for years, in fact it is the only liver medicine that does me any good," says Mr. L. A. Ragan, a well-known lumberman of this place. "When I was single, I used it for headaches, and especially if I got a cold and feel feverish, I take a good dose of Black-Draught, and it sets me right."

"Since I have been married, I have used it in my family, and never have found its equal for torpid liver or disarranged stomach, especially with children. I can recommend Black-Draught, and gladly do so."

Every member of the family occasionally needs the assistance that Black-Draught can give, in helping to cleanse the system and relieve or prevent the troubles that come from a lazy, torpid liver.

If your liver is not doing its duty, you may suffer with headache, constipation, biliousness, indigestion, etc. Unless relief is obtained, serious sickness may result. In its long and successful use, Theodor's Black-Draught has been found in thousands of cases to relieve such disorders, by stimulating the liver to do its important work. Ask for Theodor's Black-Draught, and insist on the genuine. NC-137

Sports

By Norman E. Brown.

Peppery, diminutive Miller Huggins, panned, fried, turned over and done on the other side by the New York Yankee the past season because he failed to win a pennant, has volunteered to lead the Gotham ball tossers another season—knockers be hanged. Which shows that Huggins' tiny frame carries considerable sand.

Huggins has announced, however that he will change his methods next year and will try to develop more speed on the bases, better catching and better pitching and not depend solely on the club's batting power to win games.

Huggins probably would not be in the big leagues today as pilot—might even be unknown to big league fans—but for his own stick-to-itiveness as a player in the minors. He had won his way to Class AA and was playing with St. Paul when he decided that his size would bar him from becoming a major leaguer unless he could learn to bat left-handed and become a lead-off man. He figured he had to make his rep as a second sacker, too. He couldn't throw

hard enough to get the ball across the diamond—which eliminated third and first from his grasp. He couldn't even work fast as the middle man in a double play. But he learned to play second brilliantly. He practiced hours, days and months until he could bat left-handed. Eventually he was "called" and his fame as second baseman for the Cardinals spread over the baseball world. Later he managed the club before joining the American league.

Floyd wants a bicycle, sky rocket, fire crackers, candy, apples and wants every boy and girl to get something and wishes every night was Christmas.

Rachel wants a doll with sleepy eyes and hair, and a table with chairs to match.

Margaret Harrison lives at 710 E. 12th street and she wants a set of Billy Whiskers books, red doll buggy, a rain coat, a music roll, some nuts, candy and fruit and hopes no one will be forgotten.

Clifford wants a watch, cap gun, nuts, candy, apples, oranges, fire crackers, roman candles and sky rockets and he believes that's all.

Gillett Massey don't want much, but does want a doll and some doll clothes and a doll buggy and some good books to read, some fruit, candy and nuts. Please remember her little sister, Clarice.

Angeline Anderson is 10 years old and she wants a wrist watch, candy, nuts and fruit and fire crackers and doesn't want any children forgotten, nor her teacher, Miss Nell Hodge.

Willie wants a bicycle, a football, a pair of skates, some fire crackers, roman candles, sky rockets, candy, nuts and fruit and that is all.

It would serve Buster right if a flock of terrible amateurs would rush upon him for jobs following his encouraging speech.

Riders Leg Broken When Frightened Horse Falls Down

Suffering with a compound fracture of the right leg received when his horse fell and pinned the limb under its body, W. R. Hutto was rushed to the hospital Tuesday evening for treatment.

well when the horse which Hutto was riding became frightened and reared and fell in the road pinning the unfortunate riders' leg under its body.

The bone of the leg was broken in two and badly shattered and a part of the bone was protruding from the flesh when he reached the hospital. The wound was dressed and a sedative was administered to ease the pain. The leg will be examined with an X-ray and set by the hospital if they find that the bones have not joined properly. Hutto lives at 719 W. 7th.

CONGRESS TO CONSIDER REPEAL OF WARTIME LAWS

WASHINGTON, Dec. 11.—Repeal of wartime laws will be considered by the house as soon as disposition is made of the emigration bill, republican leaders agreed today. It is planned to begin debate on the repeal proposal the first of next week.

At the American.

George Walsh, the popular Fox star, in one of his best productions, will be the attraction at the American theatre today. "From Now On" is the title and never since the days of "The Honor System" has such a stirring photoplay of prison life found its way to the screen. The picture was directed by R. A. Walsh, a brother of the star, and one of the master directors in film-dom today.

The story was written by Frank L. Packard, who wrote the story of the now famous "Miracle Man". It is a picture of New York's underworld with its gangsters and master minds of crime. Walsh plays Dave Henderson, a young man who falls into bad company and is tricked out of his inheritance by two unscrupulous bookmakers. When he learns that there is no chance of their paying back the money they have stolen from him, he decides to steal himself, so he robs them of the same amount of money that they have taken from him. But the court of justice refuses to believe his story and he is sentenced to serve five years in prison.

It is in this part of the picture that some of the most thrilling scenes are seen. After his release, he is hounded by both the police and the gang, who threaten war upon him "from now on" unless he reveal where he has hidden the money. The picture has a happy ending and a pretty romance is woven in as well. Walsh, the ideal American sportsman and athlete, is given opportunity to impress by his wonderful physique, and the feature is going to please the men as well as their hero-loving wives and sweethearts.

"The Cost" Strong Picture.
"The Cost," the Paramount Artcraft picture coming to the McSwain theatre today is said to be a strong dramatic picture of college and political life. It is from the celebrated novel of the same name by David Graham Phillips. The featured player is Violet Heming and the cast is declared to be a notable one. It is a Paramount Artcraft picture directed by Harley Knoles of "Little Women" fame.

STATE LOSES IN OIL STRIKE

Fed. Government Upheld in Contention That River Is Navigable.

(By The Associated Press)

OKLAHOMA CITY, Dec. 15.—

Claim in the sum of \$131,341.61, held in escrow, was lost by the state of Oklahoma as the result of a decision handed down by the United States circuit court of appeals at St. Louis yesterday in regard to the ownership of the bed of the Arkansas river between Osage and Pawnee counties, telegram announcing the decision was received at the attorney general's office today.

Under the theory that the Arkansas river is navigable and its bed state property the commissioner of the land office leased for oil and gas purposes to a number of oil companies. In 1914 the federal government filed suit against the lessees and the state claiming that the river is not navigable and that the bed is the property of the Osage Indian nation. This claim was upheld. It was announced at the state attorney general's office that an appeal would be taken to the United States supreme court.

Money accruing from the leases was held in escrow by Frank H. McGuire of Guthrie, appointed by Federal Judge Cottrell as receiver for the property.

She Put Them Down.

A lady who had been giving a party told her maid to put away all the refreshments that were left on the tables before retiring to bed. The next day, on looking, the lady could not find them and called to her maid: "Pridget, what did you do with those things that I told you to put away last night?"

"Sure, mum, and yez told me to put 'em away and I did, mum, and enjoyed 'em!"—Pittsburgh Chronicle-Telegraph.

Why Druggists Recommend Swamp-Root

For many years druggists have watched with much interest the remarkable record maintained by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder medicine.

It is a physician's prescription. Swamp-Root is a strengthening medicine. It helps the kidneys, liver and bladder do the work nature intended they should do.

Swamp-Root has stood the test of years. It is sold by all druggists on its merit and it should help you. No other kidney medicine has so many friends.

Be sure to get Swamp-Root and start treatment at once.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.

Prairie Pipe Line Company Reduces Capacity One-Third

There is much speculation among oil men of this city over the meaning of the latest move of the Prairie Pipe Line company. The report was circulated here Tuesday to the effect that the Prairie company had reduced by one-third the amount of oil which it would accept for transportation through its pipe lines.

Some of the local men are of the

opinion that this move is being made with the end in view of reducing the price of oil in order to permit the Prairie to fill its own storage tanks with cheap oil. It is said that this procedure is an old trick which has been resorted to by that company with much profit in the past.

ADA NEWS READERS: HELP YOUR FAVORITE CANDIDATE TO WIN

When paying your subscription to The Ada News be sure that the votes due on the payment be credited to your favorite candidate, or better yet, pay the candidate direct. Each candidate is authorized to give receipts for money due on back subscriptions, as well as for renewal or extension subscriptions, and new subscriptions to The Ada News. Each dollar paid on subscription, when for six months or longer, counts for a certain number of votes for the candidate. These candidates are not soliciting charitable donations. It is their business to take subscriptions to The Ada News or sell Job Coupons, good for printing done in the Ada News shop. And the Ada News will pay them in valuable prizes and cash commissions for all they do. Encourage your favorite candidate. Help them along toward the realization of their ambition to win the Essex Touring car or one of the other big awards to be made at the close of this great co-operative campaign, December 23.

Only Eight Days Left While Subscriptions Count Votes

Votes MUST be secured now in order to win. In order to count for votes subscriptions must be turned in before the campaign closes on December 23—just a few days away. And while they must be turned in in large numbers—every single subscription helps, whether it is for six months or two years. Many credits are being added this week through the sale of both the subscriptions and the job cards.

Oppress not the widow, nor the fatherless, the stranger, nor the poor; and let none of you imagine evil against his brother in your heart.—Zech. 7:10.

"WATCHMAN, WHAT OF THE NIGHT?"

The whole country is asking, "What of the night?" and rightly so, for the night of business is dark and the clouds lower heavily. Men everywhere are oppressed with the mighty damage the storm has wrought. The lightning still shivers the trees and the thunder rolls ominously. But the watchman sees that the morning cometh. He sees that the clouds are growing thinner, the lightning strikes less fiercely, and faintly he visions a sign that the storm is passing. It has done damage, immense damage; it has swept mighty trees away; it has flooded lowlands and made some homeless, but it has now done its worst. Its fury is over.

Soon the sun begins to break through the clouds, man reasserts his dominion and promptly starts afresh on his work. He replows, he replants, he builds stronger dams, he moves to higher grounds, and goes forward to larger things. He forgets the terror of the storm, his nerves regain their calm, his muscles become firm, his backbone stiffens, and he conquers all difficulties.

That is the story of business. It has faced the storm, it has been beaten down for awhile, but it will soon rise and move upward to higher ground. The clouds are passing, the sun begins to shine, and the watchman sings aloud to the farmer and the merchant, the manufacturer and the day laborer, "The Morning Cometh."—Manufacturers' Record.

Everybody is hoping that the present period of financial depression will soon pass away and that better times are just around the corner. It is a habit of this old world, hoping all the time for better things. And come to think of it the world would not be worth its keep unless we had this habit of hoping. Take hope away from us and we would not care to live very long. As one grows older and the frosts begin to gather about our ears we begin to look backward and think more and more of the days of childhood. That age marks the passing of hope and when it steals upon us we are ready to close the game and step forward into the unknown.

Up in Illinois the farmers are clamoring for cotton goods and burning their corn for fuel. Down in Oklahoma the farmers are clamoring for feedstuff and turning the cattle into the cotton fields. Speeding up production that we heard so much about a year ago does not answer all purposes. The nation has produced farm products and is unable to sell them, although half of the country is clamoring for what the other half has and cannot sell. Here is a puzzle for the world to solve.

Among the thrilling news items of the past week we notice these: "Mrs. Harding took tea with Mrs. Wilson." "Senator Harding slapped Senator LaFollette on the back." "Congressman Kahn says Japan hates America." "Dead man buried at Sapulpa." "Sugar mills are grinding." "Wounded Kingfisher man does not want to be shot again." It has been a week of thrillers all right.

Ada citizens are to celebrate the three-hundredth anniversary of the landing of the Pilgrims. A program has been prepared and the celebration will take place at the Mc-Swain theater on Sunday afternoon, December 19. This event reminds one of the assertion of "Savoyard": "It is a great thing to be a descendant of the Puritans; much greater in fact than it is to be a Puritan."

The attorney general of Kansas makes the proposterous statement that many Kansans are now making wildcat whisky and giving a lot of it away. The very idea! Who can imagine anyone giving away whisky! And who can imagine a Kansan giving anything away!

Oklahoma was represented at the inauguration of President Obregon by Lieutenant Governor Trapp. It was fitting that the state should be represented at this Mexican function by so urbane a gentleman as our lieutenant governor. Then Mexico might want to float some bonds, you know.

Two years ago the state fire marshal's office asked for increased appropriation because of the increase in prices. Now it is asking for still greater appropriations because prices are going down and merchants are liable to burn up their stores. "There is one born every minute."

The alien exclusion bill was passed by the house in just three days. The most deliberate body in the world will now take up the bill and discuss it pro and con for several months.

A soldier returned from overseas complains to us that Oklahoma has not ancient and impressive ruins like he saw in Picardy. We are not so sure of that. There is Jim McGraw and Scott Ferris.

There may be some empty stockings this Christmas, but we saw a pair on Broadway this morning filled to the top and running over.

That Sinn Feiners are a whole lot madder than we had believed is proved by their attack on a company of Scotch Highlanders. Men have to be mighty mad to attack those whom the Germans once called "the ladies from hell."

Woodrow Wilson has just been appointed jailer at the Vinita county jail. It is understood that he will accept the job without reservations.

Empty Stocking Fund

There are more than two hundred children in Ada who will miss all the joy and gladness of Christmas time unless funds are provided to purchase a few of the things that bring Santa Clause to the hearts and lives of childhood. To this end, the Lions Club of Ada is starting an empty stocking fund to be placed in the hands of Mrs. Orville Sneed, secretary of the local Red Cross and United Charities, to be used by her or her committee to provide the children with stockings and something to put in them. Every organization and every individual interested is requested to send the amount of contribution and by whom made to Mrs. Orville Sneed. The results of this campaign will be published daily until December 23. Lions Club \$50.00

The Path.
There are no beaten paths to Glory's
hight,
There are no rules to compass
greatness known;
Each for himself must cleave a
path alone,
And press his own way forward in
the fight.
Smooth is the way to ease and
calm delight,
And soft the road sloth chooseth
for her own;
But he who craves the flower of
life full-blown
Must struggle up in all his armor
dight!
What though the burden bear him
sorely down
And crush to death the mountain
of his pride,
Oh, then, with strong heart let
him still abide;
For rugged is the roadway to re-
nown.
Now may he hope to gain the
envied crown
Till he has thrust the looming
rocks aside.

Several Ada Boys Have Enlisted for Service in the Navy

Several men have enlisted here
at the navy recruiting station which
has just been opened in the city
hall, and the recruiting officer ex-
pects that quite a few more men
will enlist before he leaves the city
next Saturday night.

It is explained by the recruiting

FAIR WARNING

My contract with Dunlap Brothers closes December 24th, at midnight, and this greatest of all sales comes to a final close at that hour. This has probably been the greatest battle ever waged for lower prices, and now this seven-day super sale will completely route war prices in this part of the country. This will be the biggest week's sale ever rung up in Oklahoma's history.

All Washington is talking about what Harding will do. But in six months from now he will have been forgotten and the town will be wondering how Walter Johnson's arm is. And, indeed, it does seem to be a bit more interesting. We wonder if he'll be able to take his turn next season.—Oklahoma News.

The pastor of the church has said that the church was not constructed to the best advantages of a place of worship while Mr. Wilkinson declares the building would make a good district headquarters. The miner's president plans to sub-let some of the rooms of the building if his organization purchases the building.

MINERS MAY PURCHASE NEW HEADQUARTERS

(By the Associated Press)

MUSKOGEE.—At a special election to be held December 21 by all local unions of District 21, United Mine workers, the matter of purchasing a new headquarters building here will be voted upon. John Wilkinson, president of the district, has announced. One building being considered is the First Christian church, members of which have declared that the building, now for sale, should be sold for public purposes. It is planned to build a new Christian church.

Pontotoc Farmer Wins Prize at an International Show

B. F. Wilborn, who lives in Ada and owns a farm near Oakman has just been notified that a peck of sweet clover entered by him at the International Grain and Hay Show at Chicago won third prize. The amount of the prize was \$15.00 but Mr. Wilborn is prouder of the letter which accompanied the check than he is of the money. The following is a copy of the letter:

Chicago, Ill., Dec. 9, 1920.
Mr. B. F. Wilborn,
Ada, Okla.
Dear Sir:
Enclosed you will find ribbon and premium money won by you at the Grain and Hay Show held in connection with the 1920 International Live Stock Exposition.
You have just reason to feel proud of this achievement, for nowhere are the exhibits more numerous nor the competition more keen.
Permit me to congratulate you, and to express the hope that you will be even more successful at the 1921 Show.
Yours very truly,
B. H. HEIDE.

Accompanying the letter and the check was a beautiful white ribbon with a record of his achievement stamped in gold letters.
As stated in the letter the competition was keen and every state in the United States and the Dominion of Canada were represented.
The hay and grain show is a new addition to the International Live Stock Exposition, having been added this year at the request of the Chicago board of trade which donated ten thousand dollars to be used in paying the premiums advertised.
County Agent Hill knew of the good quality of sweet clover raised by Mr. Wilborn and persuaded him to send a peck of the seed to the show.

The land of this county is peculiarly adapted to the raising of good sweet clover, and more of the farmers would do well to raise it on their farms. It grows well on even the poorest grades of soil, is considered the very best kind of pasture for all kinds of stock, and builds up the land giving it new strength and richness.

J. W. Balthrop who lives two and one-half miles north of Ada has over 100 acres in sweet clover, and considers it the most profitable of all his crops. His stock run on it all the time and do well on it. He states that it not only makes good pasture but is the best kind of bee food, giving the honey a most delightful taste.

Mr. Balthrop says that many farmers are of the mistaken opinion that it is hard to get a stand. According to him most of those who have failed did so by trying to pasture it too soon after sowing and before the roots had had time to take firm hold. He is of the opinion that the first years sowing should not be pastured until after the first of August. Once the clover gets a good start it is hard to kill and in most cases will continue to grow and get better until plowed up. It seeds each second year, and gives very little trouble once a good stand is started.

It is hoped by those interested in bettering farm conditions in Pontotoc county that the success of Mr. Wilborn and other progressive farmers of this section with this particular crop will lead other farmers to investigate the matter and eventually raise on their own farms a quantity of this important crop.

Baby Is Struck By Car Tuesday

(Continued from Page One)
his car, and running back picked up the little form and held it in his arms. There was no visible signs of life. Neither pulse nor respiration could be detected, and not until 15 minutes later did the child show signs of life. At that time it returned to consciousness and complained of severe pains in the head but no break of the skin or bruised place could be found anywhere about the body. A sedative was administered by a doctor who had been summoned and the child went to sleep immediately. After resting well most the night he appeared to be recovering rapidly from the effects of the accident which apparently are not of a serious nature.

The accident was witnessed by Mr. and Mrs. L. L. Palmore and Rowell Kennon, happening directly between the Palmore and the Kennon homes. Mr. Palmore is a night watch on the city police force. He states that while Walker was perhaps slightly exceeding the speed limit of 15 miles an hour yet under the circumstances he could not be blamed for the injury of the child, and Mrs. Elam requested that he not be placed under arrest.

Walker states that he had been watching the two cars that he had just passed and was thinking of the two cars coming behind him and did not see the child until it had been struck by the car. The side curtains of his car were up and helped to shut off the view.

The Elam family lives eight miles east of Ada on a farm near the Lovelady schoolhouse. Mrs. Elam and the baby have been visiting at the home of her sister, Mrs. Will Elam at 515 E. Main. The little boy had been playing with some other children at the Kennon home a block away and was evidently crossing the street to return home when he was struck by the car.

Acid phosphate at the rate of 200 to 400 pounds per acre has often increased the yield of oats, corn or cotton from an unprofitable crop to a profitable crop. If your land produces stems, stalks and plants, but does not yield as much seed, fruit or fiber as you think it should, try acid phosphate. There is a way to make poor soil yield. Try fertilizer.

Church News

First Baptist Church.
Tonight at 7 o'clock we will hold our regular mid-week prayer meeting. At the close of the prayer service, the ordinance of baptism will be administered. We are exceedingly anxious for a good attendance.
The choir will hold its rehearsal at the conclusion of the above service. C. C. Morris, pastor.

Presbyterian Church.
Every Presbyterian in the city is expected to be at the church tonight with the filled stockings for the orphans of the Presbyterian orphanage. If you have not a name of the orphan, call Mrs. Byrd at the home of R. W. Simpson and get the name and information.

Be sure to come to the church at 7:30 and bring the stockings or the money to pay for filling them. N. P. Patterson, pastor.

Some Important Tests on Pontotoc County Farms

The following data, furnished by county farm agent J. B. Hill, will no doubt be of interest to readers of the News, as it demonstrates in a very practical way the actual advantages which result from a proper study of crop raising on the farm.
During the year 1920 Frank Mayfield of Stonehill grew five acres of corn and peas in alternate rows. The rows were planted three and one-half feet apart, the corn being planted the last of March in rows seven feet apart and the peas planted between those rows when the corn was about ten inches high, or when the second plowing was made. The land had been planted in sweet potatoes the previous year and was broke up in the winter time.

The corn and peas were plowed four times and when the corn was ready to harvest the peas were ripe. Instead of gathering the crop Mr. Mayfield turned 24 hogs averaging 175 pounds each into the field. Forty days from the date on which he turned the animals into the patch he sold fifteen of them, which averaged 275 pounds each, for \$620, keeping five for his winter meat and four for brood sows. There being some food yet in the field the nine hogs remaining continued to run on the corn and peas they could find for thirty days longer, until another pasture was open that had more peas in it.

On another field of five acres Mr. Mayfield planted one-half corn and peas in alternate rows as outlined above and in the other half he planted every row in corn. It was all planted at the same time, cultivated at the same time, on the same kind of land.

He gathered from that part of the field which had corn and peas on it 60 bushels of corn per acre, and from the part which had corn alone he gathered 30 bushels per acre.

Mr. Mayfield expects to realize as much from hogging the peas as it cost to produce the crop.

It will be noticed that a much better yield of corn was obtained

on 2 1-2 acres by placing one-half of the land in peas than was raised on the same size tract with all of the land planted to corn.

It has long been known that such a plan of mixing the two crops was successful and profitable but Mr. Hill states that this is the first practical demonstration of this nature to be brought to his attention in this county.

Not only do the peas help the corn crop by holding the moisture so necessary to the production of a good crop but they build up the land and add a type of fertilizer which places back in the ground more strength than is absorbed by the growing corn.

Men who own their farms and renters for the year will profit

materially if they follow out this plan of cropping.

Another interesting and profitable test which Mr. Hill has mentioned to the Department of Agriculture at Washington in a recent report is one made and reported by G. H. Foster of Roff.

Mr. Foster grew four acres of sweet potatoes this year which would make 350 bushels per acre (estimated). On the first day of November he turned 115 head of hogs in on the patch, some of which were pigs, some shoats and some large frame hogs.

It took the 115 hogs thirty days to eat all of the sweet potatoes, and at the expiration of the thirty days an estimate was made of the gain on the hogs and it was con-

sidered that 4000 pounds was a very conservative estimate of the gain, which would be a gain of 1000 pounds per acre.

Mr. Hill states that this is the first definite information that has come to his attention setting forth the gain from eating sweet potatoes exclusively by a given number of hogs.

Mr. Foster is well satisfied with his experiment and will grow more potatoes and raise more hogs next year.

HIGH SCHOOL NOTES

The Seniors defeated the juniors at the High school gym yesterday afternoon in a very good basketball game by a score of 21 to 4.

Rev. R. C. Taylor visited the High school Wednesday morning and made a nice talk at the chapel service on "The Wise Men and the Birth of Christ."

How About Dad?

Dad's been a brick all year. Most generous with Christmas money. Delighted that mother and the girls are going to get all they want. And now what are you going to give him for Christmas? If you'd ask him, he would say rather shyly, "Oh, don't bother, anything will do. A pair of suspenders, I guess." A pair of suspenders would be a most acceptable gift but if you don't want to stop there and really want to surprise him, we'll say he'd like a good looking colorful tie, a little bit better than he'd buy for himself or a silk shirt which he might consider a bit extravagant if he went to get it himself, but with which he will be delighted, or a nice pair of comfies to wear at home in the evening. Some good looking plain handkerchiefs or a fur cap or some silk hose or it may even be a scarf pin, some cuff links or a new leather belt with a smart buckle.
